

NCS Exterior 84 Display – A8

NCS Exterior, a neat wall mounted colour display for point-of-sales including a handpicked selection of colours that will look amazing for your exterior design. This is a “fast-track” selection of colours helping customers to a more confident colour decision, making the process both faster and more joyful when removing uncertainties on how the colour will appear. Perfect solution if you want a small colour chips collection with safe exterior colours. NCS A8 Colour chips can easily be ordered online for refill.

- 84 beautiful and carefully handpicked colours
- Perfect design collection for exterior spaces
- Perfect start for your customers’ colour journey
- “Fast-track” selection for a safe and sound colour decision

WHY NCS EXTERIOR 84

We know that choosing colour can be tricky. Sometimes the perception of a colour changes in a way we did not intend it to when painted on a house. Often colours appear more chromatic or feel warmer or colder than the colour sample chosen in the store. We developed this neat colour selection to help consumers and paint stores solve this challenge.

COLOUR RANGE

Therefore, we have created a reliable colour selection inspired by Scandinavian colours, with carefully selected hues and nuances, which will ensure a beautiful colour design. A beige will stay beige, and a red will stay red. The perception of a colour will always change slightly when painted on a wall, but when using NCS Exterior 84 you can be sure that the main characteristic of your chosen colour is preserved.

INCLUDED IN THE PRODUCT

- 84 x NCS A8 Colour chips to top up the display (20-pack per display position)
- All parts to assembly the wall mounted display
- Mounting instructions

WHY AN NCS PRODUCT?

The NCS System is the only colour system on the market which is 100% based on visual perception of colour. We take pride in our high-quality production process. All our colour chips are coated and not printed, which secures an outstanding quality over time and avoid mistakes when selecting colours.
