

NCS Interior 84 Display – A8

When customers are looking for an interior colour, they often use inspirational words like romantic, grass green or sky blue. The NCS Interior 84 display offers a unique colour sorting enabling your customers to easily select a colour that represents a specific feeling. This is a “fast-track” selection of colours helping customers to a more confident colour decision, making the process both faster and more joyful when removing uncertainties on how the colour will appear in their space. The interior display is arranged with NCS System smartness, which makes it easy to navigate to the perfect choice of colour.

- 84 beautiful and carefully handpicked colours
- Perfect design collection for all interior spaces
- Makes the colour decision process easy
- “Fast-track” selection for a safe and sound colour decision

WHY NCS INTERIOR 84

We know that choosing colour can be tricky. Sometimes the perception of a colour change in a way we did not intend it to when painted in a space. Often colours appear more chromatic or feel warmer or colder than the colour sample chosen in the store. We developed this neat colour selection to help consumers and paint stores solve this challenge.

COLOUR RANGE

We created a reliable colour selection inspired by Scandinavian colours, with carefully selected hues and nuances, that will ensure a beautiful colour design. A beige will stay beige, and a red will stay red. The perception of a colour will always change slightly when painted on a wall, but when using NCS Interior 84 you can be sure that the main characteristics of your chosen colour is preserved.

INCLUDED IN THE PRODUCT (COMPLETE SET)

- 84 NCS A8 Colour chips to top up the display (20-pack per display position)
- All parts to assembly the wall mounted display

WHY AN NCS PRODUCT?

The NCS System is the only colour system on the market which is 100% based on visual perception of colour. We take pride in our high-quality production process. All our colour chips are coated and not printed, which secures an outstanding quality over time and avoid mistakes when selecting colours.
